CDR CANS-PA Certification Instructions

The Child and Adolescent Needs and Strengths (CANS) is a decision-support tool to guide care planning, and to track changing strengths and needs over time.

Why Get Certified? Use of the CDR CANS–PA tool requires an active certification. The cost to become certified and have access to the CANS training website is $12 and is the responsibility of the individual. Check with your agency to determine if the certification cost is reimbursable, or if a coupon code is available. For more information on coupon codes, contact support@communitydataroundtable.org.
